Command Module**

**NEW astronaut
memorial wall**

Saturday May 22, 2004

Open 10 a.m. to 3 p.m.

Many people have dreamed of exploring the farthest reaches of outer space and placing their bootprints on other planets. Astronauts are trained to fly their spacecraft and conduct long missions in outer space. To become an astronaut, one must gain a good education, go through a very detailed selection process and then, once selected, go through years of training. Our presentation will discuss the many aspects of education, selection, astronaut training and preparation needed before flying in space.

11 a.m. and 1 p.m. presentations by

Bryan Palaszewski - NASA Research and Rocket Scientist

**Free souvenir
photos**

- Advanced registration guarantees admission to presentations - call 216-433-9653
- All adult visitors are required to present government-issued photo identification
- Foreign nationals (subject to restrictions) must present a visa or passport

**Check Your
Weight on other
Planets**
